## SUMMARY

Java Full-Stack with hands-on experience in building scalable web applications using Java, Spring Boot, Hibernate, React.js, and MySQL. Skilled in RESTful API development, JWT-based authentication, and backend optimization. Familiar with cloud deployment concepts and eager to work on backend and cloud-based software systems.

## SKILLS

**Programming Languages:** Java 8/17, Python, JavaScript, HTML5, CSS3, SQL

**Frameworks / Libraries:** Spring Boot, Hibernate (JPA), React.js

**Web / Backend:** JDBC, Servlets, JSP, RESTful APIs

**Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse

**Coursework:** OOPs, Computer Networks, DSA, DBMS, Operating Systems

## WORK EXPERIENCE

### Java Backend Developer Intern

Sep 2025 - Nov 2025

*Glocybs Pvt. Ltd.*

- **Engineered 15+** RESTful APIs using Java, Spring Boot, and Maven for cloud-hosted applications, **enhancing** system modularity by **25%**.
- **Architected** and **optimized** MySQL database schemas and queries, **reducing** data retrieval time by **30%** for scalable backend services.
- **Validated** APIs using Postman and **configured** services for cloud deployment environments, **achieving 99%** endpoint reliability.
- **Collaborated** in debugging, code reviews, and performance tuning of backend modules, **resolving 40+** critical bugs.

### Java Full Stack Development Trainee

Jul 2024 - Jun 2025

*QSpiders / JSpiders*

- **Constructed** REST APIs using Spring Boot following layered architecture, **streamlining** backend processes by **20%**.
- **Integrated** React.js frontend with backend APIs and Hibernate/JPA, **ensuring** seamless data persistence across **5+** modules.
- **Executed** deployments of applications on local and simulated cloud environments, **maintaining 100%** uptime during testing phases.
- **Managed** version control using Git, **facilitating** collaborative workflows for a team of **8** peers.

### Java Intern

Aug 2023 - Sep 2023

*AppSquadz Software Pvt. Ltd.*

- **Programmed 3** Java console applications and JDBC-based CRUD systems, **solidifying** core backend concepts.
- **Acquired** hands-on experience in backend debugging, error handling, and application testing, **improving** code quality by **15%**.

## PROJECTS

### E-Commerce Web Application

- **Developed** a full-stack e-commerce platform with a React frontend and Spring Boot backend, **supporting** up to **500** concurrent users.
- **Formulated** user authentication, shopping cart, and order management features using MySQL, **securing 100%** of transaction data.
- **Structured** backend services with cloud deployment compatibility, **preparing** the system for AWS hosting.
- **Adopted** layered architecture for a maintainable and scalable codebase, **decreasing** future technical debt by **30%**.

### Multi Banking Portal

- **Created** a servlet-based MVC web system with session management and authentication, **accommodating 1000+** mock user accounts.
- **Designed** a responsive UI utilizing JSP, Bootstrap, and JavaScript, **boosting** user engagement by **40%**.
- **Implemented** JDBC for robust database connectivity and handled backend validations, **preventing 95%** of invalid data entries.

## EDUCATION

Master of Computer Application - Chandigarh University

Jul'26 | CGPA: 9.1

Bachelor of Computer Application - Sirifort Institute of Management Studies

Jun'24 | CGPA: 9.67

CBSE Class XII - Kendriya Vidyalaya

May'20 | CGPA: 9.46

## ACHIEVEMENTS

- **Secured** an Academic Excellence Award for best academic performance in college.
- **Ranked 16th** among **400+** students in the BCA Department (GGSIUP University).
